PROFESSIONAL SUMMARY

A dedicated Computer Science graduate from Karatina University with a solid foundation in software development, information systems, and modern IT solutions. Proficient in leveraging technology to solve real-world problems, with strong skills in programming, system analysis, and data management. Experienced in generating efficient technical solutions and delivering timely results through the use of contemporary IT tools and methodologies. Guided by integrity, accountability, and a collaborative mindset, I excel in dynamic and competitive environments. I am committed to driving technological innovation and contributing to national development goals through creative, reliable, and impactful digital solutions.

CAREER OBJECTIVE

To apply my expertise in computer science and innovative IT solutions in a dynamic role that supports continuous learning, fosters problem-solving, and drives excellence. I aim to contribute to organizational growth through integrity, accountability, and the development of impactful technological solutions that advance both the organization and the wider community.

EDUCATION

Bachelor's Degree in Computer Science
Karatina University, Karatina, Kenya
2021 – 2025

- Graduated with Second Class Honours (Lower Division)

Kenya Certificate of Secondary Education (KCSE)
Muthithi Secondary School
2019 – 2020

- Achieved Mean Grade B+ (68 Points)

Kenya Certificate of Secondary Education (KCSE)
Sabasaba Secondary School
2015 – 2018

- Achieved Mean Grade D+ (26 Points)

PROFESSIONAL EXPERIENCE

P.C.E.A NYANGATI CHURCH
14th Dec 2025 – To Date | Vice-Chair Youth

- Assisted the Chairperson in providing strategic leadership and oversight for youth ministry programs and activities.
- Coordinated the planning, implementation, and evaluation of youth-focused spiritual, educational, and community outreach initiatives.
- Facilitated effective communication between youth members, church leadership, and other ministry departments.
- Supported the organization of conferences, retreats, seminars, worship services, and youth fellowship events.
- Mentored and guided youth members in personal development, leadership, and spiritual growth.
- Participated in the development and execution of ministry work plans, budgets, and activity schedules.
- Chaired meetings and represented the youth ministry in the absence of the Chairperson.
- Promoted active youth participation in church programs, community service, and evangelism activities.
- Collaborated with church committees and stakeholders to strengthen youth engagement and ministry impact.
- Maintained records, prepared reports, and monitored progress of youth ministry projects and activities.

Janta Cyber and Computer College
Cyber attendant | July 2025 – January, 2026

- Assisted customers with computer use, internet browsing, printing, scanning, and other essential services.
- Supported clients in accessing online government portals such as eCitizen, KRA iTax, HELB, and NHIF.
- Provided basic IT support, including troubleshooting computers, printers, and network issues.
- Prepared documents, typed assignments, and handled accurate data entry tasks.
- Taught basic computer classes and guided users on digital literacy skills.
- Managed M-Pesa transactions and maintained accurate financial records.
- Sold stationery, electrical items, and electronic accessories to customers.
- Operated printing, photocopying, binding, and laminating machines.
- Ensured customer data privacy and maintained a clean, organized workspace.

Karatina University, Nature Club
Club Editor | March 2024 - March 2025

- Produced bulletins detailing upcoming club events, meeting schedules, and project summaries.
- Designed promotional materials (posters, banners, social-media posts) to publicize club activities including tree-planting, cleanups, hikes, seminars.
- Maintained the club's website and digital channels; updated gallery and event reports to engage members and foster community awareness.
- Documented all club activities — photos, event write-ups, participant lists — and maintained archives for record-keeping and reporting.
- Coordinated membership communication: managed contact lists, ensured timely dissemination of announcements and membership information.
- Wrote and curated educational content on environmental conservation to raise awareness and encourage eco-friendly practices among university students and local community.

Murang'a County Women Sacco
Attaché Student | June 2024- August 2024

- Cleaned, organized, and updated member databases to ensure accuracy, consistency, and reliability of records.
- Performed data analysis tasks, including sorting, validating, and preparing datasets for reporting and decision-making.
- Troubleshot basic network issues and provided technical support to maintain smooth office IT operations.

- Assisted the secretary with clerical tasks such as filing, document preparation, and managing member inquiries.
- Supported daily administrative operations, helping improve workflow efficiency and customer service.

Murang'a County Government Cooperative Department(kenol)
Attaché Student | May 2024- June 2024

- Assisted the auditing team in reviewing financial records and assessing compliance of various Sacco's within the county.
- Prepared, updated, and organized databases for multiple Sacco's across different sub counties to support reporting and regulatory monitoring.
- Helped compile cooperative performance reports and documentation for supervisory and administrative use.
- Supported office operations by managing records, filing documents, and handling data required for audits and field assessments.
- Collaborated with staff to streamline workflows, improve data accuracy, and enhance the efficiency of cooperative oversight activities.

Independent Electoral and Boundaries Commission
Polling Clerk | August 2022

- Operated and maintained the KIEMS kit for voter identification and verification.
- Assisted voters and resolved basic technical and connectivity issues.
- Set up the device, ensured system functionality, and supported smooth polling operations

ADDITIONAL TRAINING

Coursera
Google Cloud Big Data and Machine Learning Fundamentals
August 2025 – November 2025

- Understanding of Google Cloud Platform services for Big Data and Machine Learning.
- Applied cloud-based tools to process, analyse, and visualize large datasets through practical labs and projects.
- Knowledge of machine learning concepts, pipelines, and model deployment in cloud environments.
- Familiarity with data storage, querying, and management on the cloud.
- Experience applying ML models to solve real-world problems through hands-on exercises

Coursera
Crash Course on Python
October 2023- January 2024

- Gained expertise in biomedical instruments across multiple departments:
- Proficient in Python programming, including data types, control structures, and functions.
- Experienced with core data structures: lists, dictionaries, and tuples.
- Applied Python in practical labs and project-based exercises, developing problem-solving and automation skills.
- Skilled in file handling, modules, and use of Python libraries.
- Strong logical thinking and algorithmic problem-solving abilities.

KEY SKILLS

- Web Design & Maintenance – Designing, developing, and maintaining functional and user-friendly websites.
- System Design and Development – Creating and implementing efficient software systems tailored to user requirements.
- Database Concepts – Understanding, designing, and managing structured data for easy retrieval and storage.
- Artificial Intelligence – Applying AI techniques to solve problems and automate processes.
- Machine Learning – Developing models that learn from data to make predictions or decisions.
- Data Analysis – Collecting, cleaning, and interpreting data to support informed decision-making.
- Graphics Design – Creating visual content using design software for digital and print media.
- Leadership Skills – Guiding, motivating, and coordinating teams to achieve goals effectively.
- Photography – Capturing and editing high-quality images for creative or professional use.
